HOLIDAY EP SET FOR RELEASE IN NOVEMBER 2024 via Dot Time Records

August 30, 2024, New York, NY: Today, NYC singer/songwriter/pianist, **Lizzie Thomas** releases an original new track and video, **Community**, an anthem for unity, hope, and peace at a time when we need it more than ever.

*You and me, community, don't forget that we are free-
I believe we'll come together in time*

Community is a breakthrough sound for Thomas, moving just outside the timeless standards she celebrates in her previous 5 albums. The new single combines spiritual, soul, folk, and jazz creating a funky, jazzy, soulful sound.

Reflecting on where the new sound's origin, Lizzie Thomas says, "I think we need, now more than ever, songs that inspire our better selves." *Community* is just that — where we understand ourselves by coming together, both in genre and with each other.

Thomas' band elevates the song with longtime MD and arranger **John Di Martino** on piano, **Kevin Sibley** on B3 Hammond Organ, **Dan Wilson** on electric guitar, **Dezron Douglas** on electric bass, and **Neal Smith** on drums. The single is recorded at the renowned **Powerstation**, NYC, and includes the **Voices of the Flame choir**.

Lizzie, who also produced the recording, set out to find a visual representation to balance the imagery of the message. The video, also shared today via [Lifeminute](#), captures NYC in all its glory- the street scenes, the bustle, the whole opulent mosaic. What's more, AME Mother Zion Church plays a lead role in driving the song's inspiration. Known as the "freedom church," it carries the history of the Underground Railroad and well over a century of struggle and adversity, and triumph over both.

Community, though a departure from the jazz standards Lizzie Thomas is known for, carries the timeless message of what happens when we come together — *Community* is an anthem of hope. It is the first single from Lizzie Thomas' upcoming original album *Awakening*, set for release in March 2025. The album release will be preceded by a holiday EP due out in November of this year.
